CEIS

MARISTA

Letter of Recommendation

The Executive Secretary of Fundación CEIS Orientación, part of the educational network of the Marist Brothers Congregation in Chile, certifies that Mr. Vladimir Acuña Valdebenito was an employee of our foundation from May 1, 2011 to October 30, 2025.

We hereby state that Mr. Vladimir Acuña worked as an Analyst and Software Developer at our Foundation, where he was responsible for designing, updating, and supporting the assessment area, especially through the PCA platforms (learning assessments) and Psychoeducational Batteries (assessments covering different areas of the social and personal development of the evaluated students). His duties included support for mailing and the website, programming, systems analysis, and server administration. In his work, he stood out for his responsibility, dedication to his duties, and his commitment to continuous learning and staying current with technological changes. His work involved interacting both with clients (school staff) and with other professionals within our Foundation. We especially value his contribution during the pandemic period, when a large part of our services had to be moved online in a very short time, a task to which Mr. Acuña made a fundamental contribution.

The reason for his separation from the organization was directly related to an organizational redesign, due to changes in the market for the products in the area where he worked. These changes required a reduction in staff and associated costs in order to ensure the Foundation's sustainability. Therefore, we are pleased to recommend his work, and we are confident that he will be a valuable asset to other institutions requiring his services.

Should you require any further details, contact information is available upon request.
