PROFESSIONAL PROFILE

- 14 years of core experience at Fundación CEIS Maristas (2011-2025), developing, maintaining, and modernizing an educational/psychometric platform.
- Previous experience in web development and systems support for public and private institutions, focused on PHP, SQL Server/MySQL, PDF/Excel reporting, data migration, and integrations.
- Current technical portfolio with projects and labs in Docker, AWS, CI/CD, observability, and AI applied to automation, published on GitHub and GitLab.

WORK EXPERIENCE

Software Architect · Systems Analyst & Full-Stack Developer

Fundación CEIS Maristas — Santiago, Chile · May 2011 — October 2025

Duties and responsibilities:

- Design, development, and maintenance of a student assessment platform (test batteries), institutional modules, and reports.
- Technology migration (PHP 5.4 → PHP 8.2+), server/library upgrades, and performance improvements with JavaScript and load testing.
- Development of advanced PDF/Excel reports with indicators, percentiles, and analysis by class, level, and school.
- Import and migration of high-volume data from Excel with validations; automation of communications (sending, segmentation, follow-up).
- Direct support for key users (coordinators, counselors, school leaders) and production operations.
- Operational security: forensic analysis of server incidents, log monitoring and analysis (Apache/PHP) for anomaly detection, security testing with OWASP ZAP, and load testing with Apache JMeter.

Verified achievements:

- **Verified metrics**: 80% improvement in Batería Online reports/load · 90% less friction in client support (2020-2025) · 45% DB/code optimization · up to 5 concurrent workstreams in certain periods.
- **2020 Pandemic**: migration of in-person services to online format in a short timeframe (cited in the recommendation letter).
- Quantified metrics and achievements from CEIS Maristas tenure: https://vladimiracunadev-create.github.io/assets/declaracion-logros-validacion-english.pdf

Technologies: PHP, JavaScript, SQL Server, MySQL, Apache, JMeter, OWASP ZAP, Excel, FPDF/PhpSpreadsheet, Constant Contact
